

# What is a Neighbourhood plan?

## OUR COMMUNITY

A neighbourhood plan is developed by the village. We will agree what to preserve and also guide future development.

Our consultation will ask us all to consider key aspects including

- : **New Houses**
- : **Community Assets**
- : **Local Services**
- : **Our Ecology and Environment**

## National and Local Plans

National and local policies will set specific targets. We can develop our plan shaped by our community which meets those without losing the things we have discovered through consultation that matter to the village.

## HOW DO WE DEVELOP A PLAN ?

Through consultation with all our residents (villagers).. and

Stakeholders:

**Local businesses.** Eg: Farmers, Ashtree works.

**Community assets.** Eg: School, Church, Village Hall.

**Charities** Eg: Community Fund, Fen Trust.

**Services** Eg: Care home, Pub.

## YOUR VOICE MATTERS!

**Have your say!** Contribute to any of the discussions to help develop your ideas and share them with the **Neighbourhood Plan Working Group**. Once we have gathered all the evidence and examined the content, a legally binding statutory plan will be shared for Referendum by the Village, ideally in Spring 2027.
